Notes about Categories

The purpose of these competition categories is to make the event fair and accessible to all riders. There are no limitations on rider's competing in a higher category to what they are eligible for – in fact, we encourage competitors to push themselves to compete in the highest category possible. The goal of these rules is to ensure that we do not have “sandbagging” – riders deliberately competing in the lowest possible category to gain an unfair advantage or easy win. The event judges will have discretionary power to alter the category of any competitor if they believe that they are acting against the spirit of the competition and outside of good sportsmanship.

4 Event Format

Each Category of the event will have a set number of Rounds of Competition.

Each Round of Competition will follow the same format:

- Riders given 2x 1min Runs on the course
 - A run is determined by the judges confirming the rider is ready to start, the clock starts when they drop in.
 - A buzzer will sound at the end of 1min. Any tricks not completed within this time will NOT count to the score.
- The Judges will score each run individually according to the Judging Criteria outlined below

4.1 Under 12s & Under 16s Competition Format

Made up of one Round of Competition.

Each Rider will get 2x 1min Runs, the best score of these will count as their final score & rank. Riders will be broken up into Heats of 4 at random to perform their runs.

4.4 Judging Criteria

The performance of each rider is judged on overall impression including, but not limited to:
